RIPE Database Requirements Task Force

- The RIPE Database Requirements Task Force was formed in October 2019 as an outcome of the Big Picture BoF that took place at RIPE 78 in Reykjavik, Iceland.
- The Task Force is tasked to produce a RIPE document listing the requirements for the RIPE Database and their rationales.
- The purpose of the document is to establish community consensus at the general level. Software development, deployment and other implementation details are out of scope.

- Monthly meetings (minutes publicly available)
- Two surveys
- Community feedback (ripe-list, BoFs, DB-WG chairs)
- Updates at RIPE 80 and RIPE 81
- Data and information collection (with support from the RIPE NCC)
- One draft published
- James presented our recommendation regarding IPv4 assignments at the AP-WG:
 - <https://ripe82.ripe.net/wp-content/uploads/presentations/james-kennedy-dbtbf.mp4>

- **Document Structure**
 - Add more clarity and context
- **Legal Address**
 - No decision made yet - possible middle ground solution
- **PERSON Object**
 - Moving from PERSON to ROLE objects
- **Personal data in historical queries**
 - Add extra filtering - research use cases are welcome
